Investment in fellow subsidiary WheelTug plc 36,000 Shares at cost of \$126 each	<u>\$ 4,536,000</u>	<u>\$ -</u>

WheelTug is the most advanced project within the Borealis Family of Companies. The investment was acquired on account from the Company's holding company with the view of ultimately providing development finance for the Company through the sale of shares at the discretion of management. The directors are of the opinion that the above carrying cost is reasonable given that WheelTug shares are currently selling at \$180 per share.
